Everyone wants a mentor. Few get one.

We found a new, organic way: Fish Mentorship groups.

Join a learning session. Learn to find your mentors for life.

---

fishmentorship.com

One learning session.
Tables by goal.

— A form, a volunteer, months of waiting

— One pair at a time

— Matched on paper, often a poor fit

— One 1.5–3 hour learning session

— Small groups by goal: YPO and YNG can be together.

— Collaborate first. Pairs form on their own, or stay in small groups.

— Two-way: everyone gives, everyone gets.

Starting small: pilots this fall.

Organic. One session. Mentors for life.

1

Prep

Do the intake form. Write your goal.

→

2

One session

Group tables by goal, not by age. 1.5–3 hours

3

You decide

Form pairs, stay as a small group, or walk away knowing how to find mentors for life.

Starting small: pilots this fall.

Click here: 5-minute intake form

1

YNG and YPO members at any stage: starting or launching a career, starting a business, a family business successor, working on mental and physical health.

2

The learning session is 1.5–3 hours. If you go forward, groups meet about an hour every 2 or 4 weeks; one-to-one is 15 minutes to an hour.

3

One real goal: From → To → By date. No goal, no seat.

4

The pre-work has a short AI prompt that turns a vague idea into a goal. Two or three drafts is normal.

5

Maybe. Someone at your table may help your goal. You also learn to search your networks and meet mentors at events, so it happens organically.

6

A mentor has done it. A coach helps you do it. A sponsor opens the door. The session shows which one each goal needs.

7

Your choice: 1–3 more group sessions, one-to-one mentoring, or hand it forward. None of it is required.

8

Yes. Tables run forum-style: what's said at the table stays there.

9

A Fish Mentorship–trained facilitator.

10

No. Free ChatGPT, email and copy-paste. Nothing to install.

11

A Forum (4–6 people), a chapter event, a learning event or a regional event (100+ people at 12 tables). Email fishmentorship@gmail.com.

12

First pilot: Sept 22, 2026. Next: pilots Oct 8 and 2 more by Oct 24, Nov launch
